SKILLS

- JavaScript (ES6+) / TypeScript
- Three.js / WebGL
- React / Vite / Tailwind CSS
- Node.js / Express
- PostgreSQL / SQL
- REST API / SSE
- Git / GitHub
- HTML / CSS / SCSS
- Blender / 3D Modeling
- Problem Solving
- Clean Code & Best Practices
- Project Management

EDUCATION

- Bachelor's Degree in Computer Science**
Veleučilište u Rijeci
2023 – Present
- Technical High School**
Smjer: Tehničar za računalstvo
2019 – 2023

LANGUAGES

- Croatian Native
- English Professional (C1)

EXPERIENCE

SOFTWARE ENGINEER

AlphaWave Software

2024 – Present

- Developed SMECO 2.0, an interactive 3D ship engine platform using Three.js, Vite and Node.js.
- Built RESTful APIs with Express and PostgreSQL including real-time updates with Server-Sent Events (SSE).
- Designed scalable database architecture and optimized queries for performance.
- Implemented authentication, role-based access and audit logging.
- Collaborate in an agile environment and manage features from concept to deployment.

FULL STACK DEVELOPER

Personal Projects

2022 – Present

- Developed modern responsive websites and landing pages.
- Built AI-powered web applications and automation tools.
- Created custom CMS solutions and admin dashboards.
- Optimized frontend performance and user experience.
- Utilized React, Vite, Tailwind CSS and Node.js.

3D WEB DEVELOPER

Personal Projects

2021 – 2022

- Created interactive 3D web applications using Three.js and WebGL.
- Designed and optimized 3D models in Blender for the web.
- Integrated real-time data, animations and physics for immersive user experiences.

FEATURED PROJECTS

SMECO 2.0

Interactive 3D ship engine room platform with real-time data, user roles and SSE.

smeco.alphawave.hr

Portfolio Website

Modern developer portfolio showcasing projects, skills and experience with interactive UI.

arminlisic.dev

Wavebreaker

Real-time 3D ocean simulation built with Three.js and custom shaders.
